

When you choose to adopt ...

Every year many young, injured or abandoned seals are washed up around our coastline in desperate need of our help.

Saving these unfortunate creatures from certain death requires a high degree of care and commitment from the National Seal Sanctuary. We also rely heavily on the help and support of many of our visitors who choose to adopt a seal and help it on its long road to recovery.

By adopting a seal, your valuable contribution ensures that your seal is given the best chance of making a full recovery which will enable it to safely return home to the wild.

For those who, due to the nature of their injuries, are unable to effectively survive in the wild, your support will ensure that they live out the remainder of their lives within the safe confines of the National Seal Sanctuary.
