CAIMAN CROCODILES

Come face to face with our three Cuvier Caiman Crocodiles in our new Amazonian themed area. These sleek and sinister reptiles grow up to 1.6 metres long and hail from northern and central South America.

Deforestation and habitat destruction reduce their natural habitat year on year, and as a result they are becoming more and more endangered.

Did you know?

Crocodiles can live for up to 80 years!

## Not to be missed

- ★ Meet Sally, Amber and Tyne, our resident seals
- ★ Test your sea worthiness in 'Pirate Bay', our outdoor play area
- ★ Come eye to eye with our Caiman Crocodiles

# Your visit can make a big difference

## SEAL RESCUE

The animal care team is on call around the clock to race to the rescue of seal pups in trouble, anywhere around the coast. Back at the Sanctuary, pups receive expert veterinary care and are gradually weaned from a liquid diet to whole fish in our purpose built hospital. Then it's to the outdoor pools to gain weight and build strength and stamina ready to resume life in the wild.

If you should discover a seal pup that seems to be in distress, or is alone, what you do next could mean the difference between life and death for the animal.

- ★ DO keep your distance
- ★ DON'T attempt to handle the pup
- ★ DON'T try to put the pup in the sea
- ★ DON'T ignore the situation
- ★ DO tell the appropriate organisation

Call us at the Humantston Seal Sanctuary on 01485 533576 or contact your nearest RSPCA officer.

### Donations and Regular Gifts

By donating a small amount of money each month to the Sanctuary you will be making a contribution towards our work and the conservation of seals worldwide.

### Animal Adoptions

A special way to honour a birthday or special occasion, while supporting an important cause. By adopting one of the Sanctuary's resident seals or rescued seal pups you will be pledging your support to global seal conservation.

Ask about our donation and animal adoption schemes during your visit
