TURTLE SANCTUARY

Visit our brand new refuge for endangered freshwater turtles, the latest in a Europe-wide network of breeding facilities for these strange and exotic animals... many of which have been pushed to the brink of extinction.

The largest species of turtle is the Great Leatherback sea turtle, which reaches a shell length of 200cm and can reach a weight of over 600kg!

WOW!

Your visit can make a big difference

SEAL RESCUE

The animal care team is on call around the clock to race to the rescue of seal pups in trouble, anywhere around the coast. Back at the Sanctuary, pups receive expert veterinary care and are gradually weaned from a liquid diet to whole fish in our purpose built hospital. Then it's to the outdoor pools to gain weight and build strength and stamina ready to resume life in the wild.

If you should discover a seal pup that seems to be in distress, or is alone, what you do next could mean the difference between life and death for the animal.

- ★ DO keep your distance
- ★ DON'T attempt to handle the pup
- ★ DON'T attempt to put the pup in the sea
- ★ DON'T ignore the situation
- ★ DO tell the appropriate organisation

Call us at the Scottish SEA LIFE Sanctuary on 01631 720386 or contact your nearest SSPCA officer on 03000 999 999.

Donations and Regular Gifts

By donating a small amount of money each month to the Sanctuary you will be making a contribution towards our work and the conservation of seals worldwide.

Animal Adoptions

A special way to honour a birthday or special occasion, while supporting an important cause. By adopting one of the Sanctuary's resident seals or rescued seal pups you will be pledging your support to global seal conservation.
